Regarding- 1) Application number 10/ 072,282 - filing date 2/11/2002
2)Application number 10/ 162,740-filing date 6/6/2002

Dear Ms. Patel,

This letter is to bring to your attention that in response to the USPTO office action dated 9/03/2003 regarding application number 10/ 072,282 , I had sent in a copy of the revised application on 10/22/03. The proof of my response is enclosed with this letter. Page #2 is a copy of your office communication, page # 3 is a copy of the my express mail receipt and page #4 is a copy of the United States Postal Service charges, a copy of my American Express credit card on which I charged the US postal charges, and a copy of the return receipt which indicates that your office received my application. I hope that the information I have provided would suffice and help you in tracking down my application that was mailed on October 22,2003. In case you are unable to find my application, I would be more than happy to send in another copy of the revised application. However, in order to send in a duplicate application I will need some time to prepare a response. This winter I had a major accident in my house-some of the heating pipes froze and bursted and there was a major water damage and as a result of that I have lost all the information from my computers. I hope that you will be able to track down my response in your office or grant me sufficient time to prepare a new response.

Secondly , pages 5,6,7,and 8 that are included with this letter are in reference to application number 10/ 162,740-filing date 6/6/2002. These pages should provide a proof of my response to the last communication that I received from your office regarding this application on 2/03/2004. In my communication ,I had requested a 3 month extension period to prepare an adequate response or the amendments that have been requested. If there are any questions regarding either of the applications ,please do not hesitate to contact me at 5169671892 or page me at #9175377394. I would once again like to thank you for all your help and guidance .

Sincerely,

Sunil Dhuper, MD
